

VINAYAK KUMAR

Full-Stack Engineer - AI Agents & Workflows

New Delhi, India | +91 70489 23081 | vinayak111kumar@gmail.com
vinayak1337.me | github.com/Vinayak1337 | linkedin.com/in/Vinayak1337

Summary

Full-Stack Engineer with 3+ years of professional experience building web and mobile products with React, Next.js, TypeScript, React Native, and Node.js. Coding since 2019; work spans AI agents and workflows, APIs, authentication, persistence, and analytics.

Technical Skills

Frontend: React, Next.js App Router, TypeScript, React Native, Redux Toolkit/Saga, Tailwind CSS, shadcn/ui, Vite
Backend / Data: Node.js, Express.js, Prisma, PostgreSQL, MongoDB, REST, GraphQL, Shopify GraphQL, Socket.io, Clerk, Stripe
AI / Product: AI agents and workflows, Flowise, LLM integrations, PostHog, Mixpanel, Vercel, AWS S3, Firebase, Git/GitHub

Work Experience

Full-Stack Engineer

Feb 2024 - Nov 2024

RemoteHire

Remote - New Delhi, India (full-time, then part-time)

- Owned most of Immibot’s full-stack delivery: AI chat, auth, persistence, admin, analytics, and deployment.
- Built guest sessions, quotas, and guest-to-Clerk conversion with conversation transfer and cleanup.
- Shipped Flowise-based Advisor/Search, follow-up, progress-tracking, orientation, and FSW eligibility workflows.
- Built streamed Perplexity Sonar search over official CA/US/AU sources, with persisted citations/messages and retries.

Software Developer I (Former Intern)

Nov 2021 - Feb 2024

Wonderhood

Remote - New Delhi, India

- Migrated the platform to Next.js with ISR/SSG/CSR and raised Lighthouse performance from 35 to 90+.
- Built e-commerce/content flows using Shopify GraphQL and SDK for toys, blogs, articles, courses, cart, and dynamic content.
- Led an Ionic-to-React Native migration and redesigned child-centric mobile UI for better performance and product ergonomics.
- Converted MyLearning into a teacher dashboard for courses, assessments, reporting, and Mixpanel event instrumentation.

MERN Stack Intern

Sep 2021 - Nov 2021

Possibillion Technologies

Remote - New Delhi, India

- Led 4 interns and shipped 3 MVPs across tourism, slideshow generation, and social workflows using React, Express, MongoDB, Socket.io, FFmpeg, and AWS S3.

Personal Projects

Nutrlife (2026) - Health & Nutrition Mobile App

React Native, Expo, TypeScript, Clerk, Redux Saga

- Built a nutrition app with authenticated onboarding (Clerk), AI food photo analysis, persisted meal logging and water tracking (Redux Saga), calendar insights, and recommendations; installable Android APK.

StoreFront (2024) - Billing, Inventory, Orders, Analytics

Next.js, TypeScript, Prisma, PostgreSQL

- Built a POS/inventory dashboard with item organization, orders, analytics, secure cookie sessions, CSRF/rate-limit middleware, and Bluetooth thermal printing.

AI Chat (2024) - VS Code Extension

React Webview, TypeScript, OpenAI, Gemini

- Built editor-native AI chat with file-aware context, attachments, provider switching, planning, review, debugging, and editor write-back actions.

Education

B.Tech in Computer Science and Engineering

2024 - Present (Expected 2027)

Guru Gobind Sinah Indraprastha University (GGSIPU)

New Delhi, India

- Resumed studies in 2024 after professional software roles across internship, full-time, and part-time work (2021-2024).

Diploma in Computer Engineering

2018 - 2021

Ambedkar Institute of Technology

New Delhi, India

Open Source

Open-source contributions - checkstyle, Express, Jenkins

2026

- Worked on [checkstyle](#) (Java static-analysis tool, 8k+ stars): specified all default properties for SuppressionCommentFilter and fixed LineLength violation-comment placement in Javadoc.
- Worked on [expressjs/codemod](#), updating package.json handling in the Express v5 migration recipe, and fixed sign-in without a Referer header in [jenkinsci/azure-ad-plugin](#) (Jenkins).

Leadership

BPIT Tech Team - Full-Stack Developer (Team Lead)

Jun 2025 - Dec 2025

- Led a team of 3 in the college’s official tech team to build the new BPIT website from scratch: Next.js App Router, TypeScript, inline click-to-edit CMS persisted via MongoDB, PostHog analytics, and Vercel previews.

Relics Esports - Leader and Bot Builder

2019 - 2022

- Scaled a Brawl Stars esports community to 50,000+ members across 50+ Discord servers and built Node.js/Discord.js/MongoDB bots that automated tournaments, verification, moderation, and ladder tracking.
