Summary

React/Next.js Software Engineer with 3+ years of professional product engineering experience across web apps, mobile apps, APIs, CMS workflows, analytics, payments, and applied AI features. Built production systems with Next.js App Router, React Native, Node.js, TypeScript, MongoDB/PostgreSQL, Clerk, Stripe, PostHog, Mixpanel, LangChain, and Flowise.

Technical Skills

Frontend: React, Next.js App Router, TypeScript, React Native, Tailwind CSS, shadcn/ui, Vite, Shopify GraphQL
Backend / Data: Node.js, Express.js, Prisma, MongoDB, PostgreSQL, REST, GraphQL, Socket.io, JWT, Clerk
Product / AI: LangChain, Flowise, RAG, Stripe, PostHog, Mixpanel, Chart.js, Vercel, AWS S3, Firebase, Git/GitHub

Work Experience

Full-Stack Engineer

Feb 2024 - Nov 2024

RemoteHire

Remote - New Delhi, India (full-time, then part-time)

- Re-architected an immigration AI assistant with modular country/domain adapters for faster feature launch across workflows.
- Launched one-click guest sessions with history and credit merge so users could try workflows before account creation.
- Built multi-mode chat and agentic RAG with LangChain and Flowise for retrieval, document validation, eligibility scoring, and recommendations.
- Shipped cited web search plus dual streaming that persisted conversations to Prisma/SQL while keeping the live UI responsive.
- Integrated Clerk, Stripe subscriptions/top-ups, PostHog analytics, Next.js App Router, TypeScript, shadcn/ui, Tailwind, Vercel, and PWA deployment.

Software Developer I (Former Intern)

Nov 2021 - Feb 2024

Wonderhood

Remote - New Delhi, India

- Promoted from intern; led React, Next.js, and React Native product work across wonderLearn web and mobile surfaces.
- Migrated the platform to Next.js with ISR/SSG/CSR patterns and raised Lighthouse performance from 35 to 90+.
- Built e-commerce/content flows using Shopify GraphQL and SDK for toys, blogs, articles, courses, cart, and dynamic content.
- Led Ionic to React Native migration and redesigned child-centric mobile UI for better performance and product ergonomics.
- Converted MyLearning into a teacher dashboard for courses, assessments, reporting, and Mixpanel event instrumentation.

MERN Stack Intern

Sep 2021 - Nov 2021

Possibillion Technologies

Remote - New Delhi, India

- Led 4 interns and shipped 3 MVPs across tourism, slideshow generation, and social app workflows using React, Express, MongoDB, Socket.io, FFmpeg, and AWS S3.

Personal Projects

BPIT Website (2025) - CMS, Public Pages, SEO

Next.js, TypeScript, Tailwind, MongoDB, PostHog

- Building a new BPIT website from scratch with inline click-to-edit CMS workflows for text, links, and images on rendered pages.
- Modeled department/page content into reusable MongoDB-backed schemas and added analytics, metadata, structured data, and Vercel previews.

StoreFront (2024) - Billing, Inventory, Orders, Analytics

Next.js, TypeScript, Prisma, PostgreSQL

- Built a POS/inventory dashboard with item organization, orders, analytics, secure cookie sessions, CSRF/rate-limit middleware, and Bluetooth thermal printing.

AI Chat (2024) - VS Code Extension

React Webview, TypeScript, AI Provider Workflows

- Built editor-native AI chat with file attachments, model configuration, planning/review/debugging workflows, and write-back oriented developer UX.

Education

B.Tech in Computer Science and Engineering

2024 - Present (Expected 2027)

Guru Gobind Singh Indraprastha University (GGSIPU)

New Delhi, India

Diploma in Computer Engineering

2018 - 2021

Ambedkar Institute of Technology

New Delhi, India

Leadership

Relics Esports - Leader and Bot Builder

2019 - 2022

- Scaled a Brawl Stars esports community to 50,000+ members across 50+ Discord servers and built Node.js/Discord.js/MongoDB bots that automated tournaments, verification, moderation, and ladder tracking.
